

Hello dear servants of the Lord. Grace and peace to you in Jesus' name! We, brethren in this part of the globe are praying for our family in the west as you have more fires and battles. Praying that you are able to stay strong and contend for The Faith that was once and for all given to the saints. In the similar or some perhaps little different way we try to hold the ground over here, wielding the sword and shooting arrows. Well, enough of symbolism for this writing. I am writing this letter after a long weird summer to ask for prayer and to suggest to you to share with us your prayer requests. Things that you might want our fellowship to join you in prayer for. Seems that there is many wounded comrades in the fields after this wide scale attack. Not from the virus mostly, but from those entities who are supposedly fighting the virus, those who try the super man suit on. It is a pathetic sight, very pitiful business of saving the world apart from True Savior! Anyways, quite a few of the faithful got hurt. When people are isolated and cornered for harassment they are overcome much quicker.

So, there is some revival work or even resurrection to do. I feel like we need to pray for that. Perhaps it will be a good new start for some brethren. After the most intense days of isolation our fellowship has actually got some people come back to life. It seemed that some of them have been fossilised by now, but in fact they are alive and found their way back to church. Praise the Lord! A couple of new people started coming regularly as well. But my prayer is for all of our people, including my self to be more active, more alive in our society, more active for the Lord, for more glorious fruit of the Holy Spirit in our midst.

Our specific big need in the upcoming days is the annual conference. We have November date in mind, the theme and many faithful saints yearning to attend. However, along with that such little clarity for the coming days and weeks. We usually start applying for visas and starting to prepare intensely at this time. Each year there are hardships of its own as we put the conference together. It is in mine and many others' opinion that this conference is the best event of the year. So for us individually and as a group there is always lots of opposition as we aim to please the Lord. This year the obstacles are bigger than ever. Can't even start to apply for visas because as of today there is no Russia-USA flights (for common people). So what do we do?! We pray to the Lord and do what we can. We would have even less options if we were in prison cells - like Paul the apostle or many others since that time. So, please join us in prayer for the conference.

It actually gets exiting in a way when there is such blunt opposition and opportunity to shine the light in dark world. It just gets little hard at times in the feeble brains and hearts of a modern human and we get dysfunctional easily because of some cracks in our frame. I speak for my self, but know that to be true for many. So prayer is needed at all times and much more so at an important time like this. The conference it self is very encouraging and rejuvenating for the congregants, but we need extra strength and wisdom in preparing it.

## CCV conference and more

Hopefully we do not have to do it underground yet. But if the planet is winding towards the end - just how soon we will be in the underground mode? There is no telling.

Please pray for salvation of Russian and Russian speaking people, for many that we can reach. Speaking of that I may be going to a couple of regional conferences couple of timezones away - in Udmurtia and Siberia. If the Lord puts in in your heart to help financially with those semi long distance mission, please write. Hopefully some from our fellowships will come along and help with kids ministry and worship, well serving and helping in other capacities as well. All can use some encouragement out there in far away lands. Just not everybody are very mobile - because of shallow finances these days. Well, most of the days. The economy is not equally good for all people. Here it is polarised to much. Money is drawn to one pole, lots of labour to the other. Anyways, I know my analysis of things can be rather pathetic, so I trust my friends to be mature Christians and pray about things firstly and mostly. Whatever else happens is in the hands of the Lord. I let you, my friends know of what is cooking in the pots here and you decide how to pray and get involved. The Lord we serve is the surest reality of all. So, hopefully you can cope with my free style and lack of formality, and get involved with the Lord's doings in this part of the world according to the Lord's direction. My brain is so tired of processing tons of new information, calculating scenarios and then trying to explain my self to others. The information needs to be sifted and sorted... But not always to well by this feeble mind.

So, hopefully all the above makes sense and you can pray with us and for us. The Lord is always good, always faithful, always strong to deliver, mighty to save. It is good to be in the hands and under command of our Loving and all-wise God.

You can surely pray for my family, other families in the church(es), our country leadership and for more workers in the fields.

Thank you very much for your prayers for us.

We pray for you - that you continue to stay strong in the Lord, in the power of His might.

Maranatha!!!

Pasha, family, brethren in Russia
